

Keith + Associates Dentistry

Location

Mission, Kansas

Project Type

Dentist

Keith + Associates Dentistry, the preferred dentist of Sporting KC, chose Jonkman Construction and their long-standing quality of workmanship to lead their recent Class-A office relocation and expansion project. The newly completed 8,354 square foot space features modern architecture, excellent workspace flow, and vivid pops of color, interspersed with the building's now exposed concrete columns. This tribute to the original building design of 1972, paired with quartz surfaces, glass walls, and natural walnut casework, highlights a diverse blend of contemporary materials that harmonize throughout the space.

Together with the experience and knowledge of Benco Dental Supply, Jonkman Construction was able to seamlessly integrate the latest in dental equipment and technologies, resulting in maximum patient comfort. Each dental bay is equipped with a full suite of modern tools while a centrally located control room supplies each station with necessary liquids, gases, and power. Because the patients and the community are the most important part of the Keith + Associates mission, we are extremely honored to have been a part of this project, and part of the Keith + Associates team.
