

Location

Overland Park, Kansas

Project Type

Class A Office

For 20+ years, DEG has utilized creative applications of technology to provide their clients with the ultimate digital experience. Jonkman Construction was honored to partner with DEG for their recent office expansion in Overland Park, Kansas. DEG now occupies the fourth, fifth, and sixth floors at 6601 College Boulevard. This latest metro area Class-A office space provides DEG with the state of the art work environment necessary to support the creative exploration that drives their continued success and growth.

Designed by Helix Architecture + Design of Kansas City, the space flourishes with custom designed and manufactured casework using diverse levels of finish that surpass Class-A aesthetics. The workflow layouts provide DEG the confidence that their space is working in the most productive manner possible. Jonkman Construction maintains a wonderful partnership with DEG through long-standing trust and quality of workmanship.
